It is that that time of the year again as the darkness draws nearer, and things begin to get a little bit... **spooky!**

A wee festive model kit of a wicked cackling witch upon her broom designed to be hung up, a perfect alternative gift to hand out to either trick-or-treaters, guisers, or party-goers!

Zombie Kit Card from last year...

Included is the standard fit, same as other kits, but also a tighter (**labelled 'Ti_'**) variant as I know some of you might find the standard fit too loose! You can make it EVEN TIGHTER by increasing the Z-scale by 15%. For those uninterested in the card format, there are frameless variants

included, alongside the individual part files!

Print at **0.2mm layer height**, there really is no benefit from printing at a higher resolution and it could affect the fit.

The model parts are 1.8mm high, which is not divisible by 0.16 for example!

Be sure to print with **100% infill** for it to hang straight as the weight distribution can be sensitive!

Makes greatly appreciated, always glad to see them! Happy Printing!
